

I am writing in regards to the possibility of K-LOVE being placed as a LPFM station. I wish to express my hesitance and dislike for such a decision.

In the Utica, NY area, K-LOVE, 100.7FM, serves as the only positive radio station based on family values. As the mother of a young child, I find it reassuring that I can count on K-LOVE for positive and encouraging music. I never worry about having to change the station due to vulgar or indecent material. A mother's dream is to have such a safety net as this in what is becoming such a tainted society.

I urge you to consider the importance of making such a decision. Many families will be affected adversely by losing the convenience of just turning on the radio without worry. Please do not take this small, yet vitally important, convenience away from us.

With many thanks and appreciation for your heartfelt and prayerful consideration -

Christina Schiavi, a concerned mother
